

Linking Ideas — Collaboration

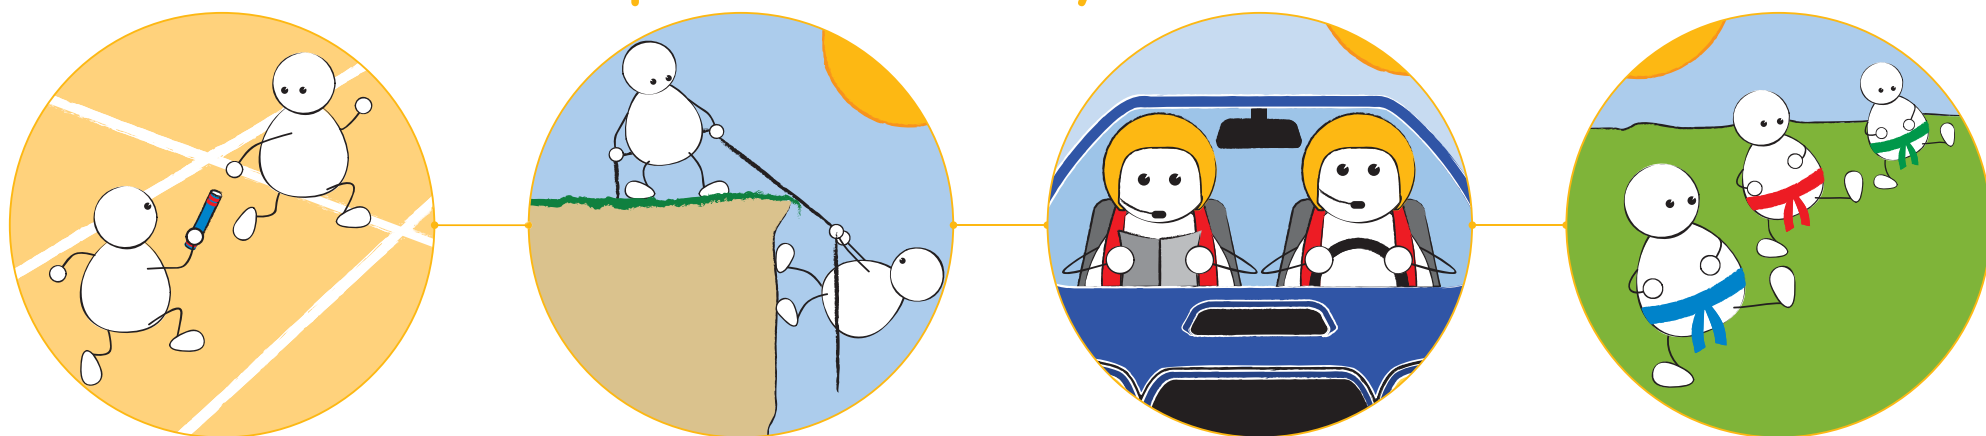

Reciprocity — Collaboration

When you use this learning muscle, you ...

- are aware how you respond to other people
- manage your feelings when working with others
- respect other people's points of view
- are able to work effectively as part of a pair or team
- share information and ideas willingly
- understand the ground rules of team work

Which of these pictures best conveys the idea of collaboration?

What makes you say that?

Team roles

Teams are made up of people with different jobs who work together to achieve their goals.

Link the position to the job.
