

RESOURCEFULNESS:

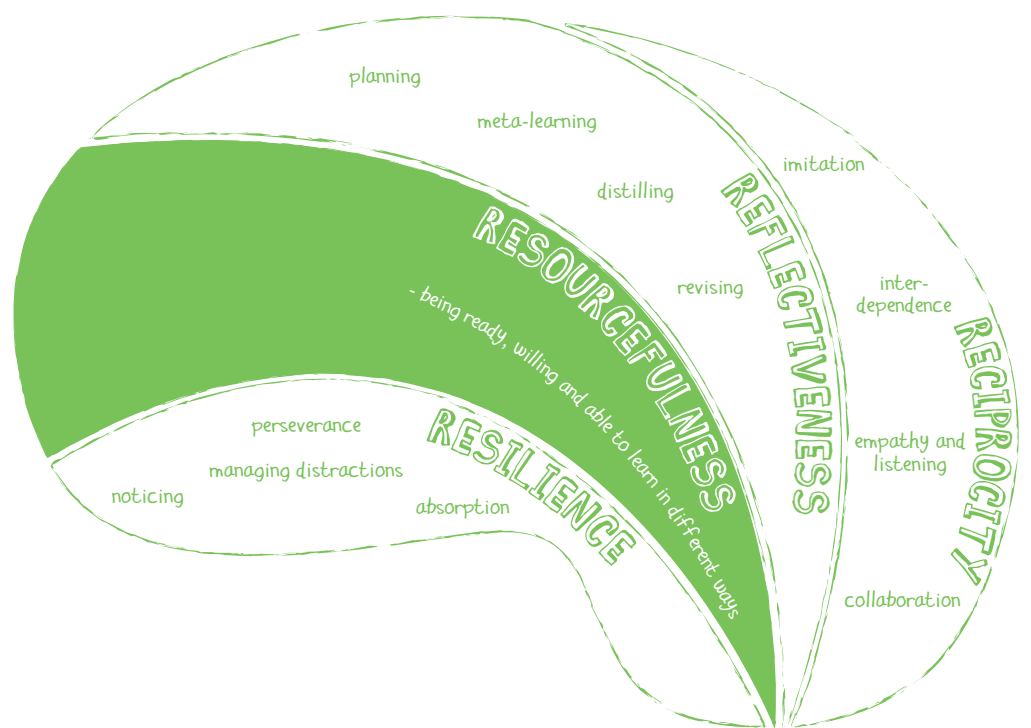

The cognitive aspects of learning; 'thinking'

The capacities that make up this disposition are:

Questioning Making Links Imagining Reasoning Capitalising

Capitalising

Drawing on the full range of resources from the wider world —other people, books, the Internet, past experience, future opportunities ...

A Stretching Activity

ACTIVITY TITLE

Organisation

Introduce as a whole class activity that children can contribute to individually or work on in small groups with or without adult support.

Resources

Prepare a display area for the end product of the activity.

Activity

- Choose an easy theme like food (something related to a class topic) and encourage the children to collect and share different sources of information.
- Start a display of leaflets, information books, printed pages from the internet, photographs, advertisements from magazines, recipe books, fruit and vegetable gardening catalogues etc.
- Ask the children if they know of people who might be able to give them more information e.g. greengrocer, cook, gardener; and where else they might look.
- Make a large mind map or flowchart of all the resources available, with pictures.
