

Resourcefulness for Martians

A way with words

As a group think how you could explain to a Martian what **resourcefulness** means.

Time to think ... and share ideas

In pairs – Think of a time when each of you has been resourceful.

Take turns to interview each other about it. For example you might ask questions like ...

“Where were you?”

“Did you think up something you’d not been taught?”

“What was going on in your head?”

“What were you trying to do?”

“Were you able to use something you’d learned somewhere else?”

“What did you try?”

“How many ideas did you try?”

“Where did your best idea come from?”

Me-now!

Write or draw something that’s important to you about **resourcefulness** following on from your discussion.
