

Reciprocity for Martians

A way with words

As a group — Think how you could explain to a Martian what **reciprocity** means.

Time to think ... and share ideas

In pairs – Think of a time when each of you has been reciprocal. Take turns to interview each other about it. For example you might ask questions like ...

“Where were you?”

“What did you learn from them?”

“How did the group work out the best way forward?”

“What were you trying to do?”

“What did you add to the group’s learning?”

“Who were you with?”

“Were you able to pick up any good learning habits?”

“Where did the group’s best idea come from?”

Me-now!

Write or draw something that’s important to you about **reciprocity** following on from your discussion.
