

# Revising learning mat

Checked the success criteria to check I was on track

I know what my work should look like to be good

I think what I did was good enough

I liked it when my teacher said my learning was ok

I just tried lots of ways to get this better.

I thought about doing it a different way.

I sometimes say 'is this on the right lines?'

I...

I...

How well did I revise my thinking?

A vertical traffic light with three circles: red at the top, yellow in the middle, and green at the bottom.
