

Building Collaboration**Activity 2: Classroom Climate for Collaboration**

What happens in your classroom?	Yes	No	Fancy trying
Classroom layout is flexible enough to be easily adapted to support collaborative/team learning			
Jigsaw groups are used to broaden the range of learning relationships for students			
Think/Pair/Share activity is used to scaffold collaborative learning			
Students are encouraged to form their own teams/groups for best results			
Students are enabled to accept, support and trust each other in order to build team/group cohesion			
Students are enabled to assess each other's contribution to the team process			
Teams are expected to agree goals and plan how best to achieve them			
Time is allowed for teams to evaluate the effectiveness of their team practices in relation to the outcomes			
Most lessons involve some teamwork activity			
Displays and Celebrations			
Class generated prompts for effective teamwork are prominently displayed			
Students are praised and rewarded for carrying out team roles effectively
