

# Revising learning mat

Checked the success criteria to check I was on track.

I made sure my work was the best it could be.

I changed my plan when I got stuck.

I'm happy with what I have achieved.

I stopped every so often and thought about how it was going and what I could improve.

I thought about doing it a different way.

I have scrapped the first idea and started again.

I re-drafted my work and am pleased with the result.

I...

How well did I revise my thinking?
