6	Embodies. "I can't not."	I use and adapt a complex mix of resources / strategies to help me do a job well.	I use and adapt a complex mix of effective resources to help me do a job well.
5	Organises. "I make sure."	I delve deeply into reference resources and work alongside knowledgeable others to find the best resource for the job.	I need to find more efficient/ complex/ original resources/ strategies to enable me to do this well.
4	Values. "I see why."	I make best use of what and who is around me, and realise that it is in my interest to do so. I deliberately and carefully select and combine ideas, resources and strategies when necessary and access them independently.	I know which resources / strategies I need to look for / find.
3	Responds. "I'll try."	I independently decide on the strategy I wish to follow and the resources I shall need. I'm learning how to select the right or most appropriate resource to help my learning. It might be a strategy to solve a problem or a tool I make good use of.	I know about lots of resources and strategies but I am not sure which to use.
2	Receives. "Show me. Tell me."	I watch and listen to how other people do things and the resources they use. I look for useful learning resources and materials when I'm told / guided to do so.	I use the materials and strategies I am told to.
1	Lacks. "I can't. I won't."	I need other people to tell me what strategy or resource I need to use to help me learn.	Not really aware that various tools or resources are aids to learning.
The 6 phases of development		The trajectory of developing skills and behaviours	The trajectory of developing attitudes and self-talk
