

Completed by:	Class Name:
---------------	-------------

Which phase (grey/ purple/ blue/ green/ yellow/ orange) best describes <i>the majority</i> of your learners?		Your whole class
Which learning behaviour(s) appear to be the strongest?		
Which learning behaviour(s) appear to be the weakest?		
Think about the profiles of your boys and of your girls. What are the similarities? What are the differences?		Subgroups of learners
Which learning behaviours do your higher attainers have that your lower attainers do not?		
Which other subgroups of learners have you considered? For example, did you compare English first language students with EAL students?		
What similarities/differences are you discerning between these different groups of learners?		
What questions do you have a result of completing this analysis?		
What might you do next as a result of completing these profiles?		Moving on . . .
